

Our Tree was just a baby puppy when he came to our rescue. We fell in love with him and made him part of our family here at the dog rescue.

Our haven for dogs is a farm in the country where abandoned or abused dogs and puppies come to stay until we find forever homes for them.

Tree lives with us in a really cool, old farmhouse that sits on five acres out in the middle of the country. There are seven, large dog yards and open play areas for all of our rescue kids. Tree gets to go all over the farm.
